Rensselaer Union Executive Board
Meeting Minutes
October 5, 2017
Written by: Ida Etemadi

MEETING BEGINS AT 8:05 PM

RPITV

Jason Lee (President of RPITV):

RPITV is going to Ireland with the hockey team
We would like to redirect some of our funds to the travel of two more people

Chris Maria:

What would the two more members add to the trip?

Jason Lee:

The additional people would help us get better shots and logistically have a smoother and more organized trip

Steve:

The documentary will not be filming the game
They will not be able to film anything inside of the arena
They will be promoting the USA and promoting RPI
They will be recording the auxiliary activities while they are there

Kay:

We don’t know how much incentive income they make, but they have money from their WeR Gold account
This trip matches with the goals from their WeR Gold account

Matt Heimlich:

Steve, do you have any more comments on using this rather than cameras?

Jared:

The entire club voted on this use of the money

David:

Both of the sources of money (WeR Gold and the incentive income) are going to be pulled from at some point anyways
CJ:  
It makes sense to use the money from the goal and pull money from the right pockets  

Ananya:  
I am leaning towards them keeping their money  

Ida:  
Historically, they haven’t had enough money for their camera equipment during budgeting, so if RPITV saves its incentive income, they can get a better camera down the line  

CJ:  
What is the difference in the two contingency years?  
I understand that this is really cool, but it is very specifically giving two individuals a trip to Ireland and could better be put to the whole club  

David:  
This is giving two people a trip, but this isn’t a specific trip  

Caitlin:  
We could do some from contingencies to show support from the Union  

Ciera:  
Going back to the points of CJ and David, I would rather see them have four people and have a good time, then have four people go and have  

Ida:  
The job of the E-Board is to be the gate keeper to their funds  
This is what they want to do, so we should let them do it since it is their own money anyways  
This is not a ridiculous request  
If we took from contingencies right now, we would have to go through the process of doing the 60-40 for the two new people and then decide if we want to let them draw the extra from incentive income  

Erica:  
I agree with what Ida said completely  
I would not be comfortable changing the club’s decision and going against what the leadership originally decided  
If they requested to draw from incentive income rather than from contingencies, that is what they are requesting
Chris:

The idea of making two different motions logistically should not be the reason for us denying the request

Ida:

If they wanted it out of contingencies, they could have done the math with the 60-40 and decide how much they want to take out of where and come back next week, but that is not what they are asking for

I say we allow them to use the incentive income

RPITV has thought this out more than the 15 minutes we have been discussing, so we should respect their club’s decision

Ciera:

Going off of Ida’s point, it means more for us to show support for our club’s decisions rather than just give them money

Taking money out of contingencies would be us stepping in and over riding their leadership, so we should just give them what they are asking for

**MOTION TO CLOSE THE QUE PASSES 16-2-0**

**MOTION TO REALLOCATE INCENTIVE INCOME TO SEND TWO MORE MEMBERS TO THE IRELAND TRIP PASSES 15-0-3**

**McNeil Room Proposal**

Graham:

I began the National Society of Leadership and Success and had a tremendous turnout

It was centered towards the sophomore class

Students would go through leadership training and a speaker series

I have reserved space in West Hall for the first three, but I came here to ask for space in the McNeil room for a talk from Simon Sinek

The broadcast starts at 7:00pm and I would need some time to set up and the broadcast would go on for about an hour and ten minutes

The reason I can’t find space on campus is because it is being used for exam blocks and other performances

Erica:

The club is working on getting Union affiliation

They are not yet a club, but they are moving in that direction
Graham:

The funds come out of the archer center

Kay:

Did you conduct a survey asking how many people would attend?

Graham:

I have 260 students and to be inducted, they must attend three of the four speakers this semester

Kay:

I was interested in a general number

Graham:

I’m going to guess around 200

Ananya:

Can you explain the livestream more?

Graham:

This would be a live stream of a lecture being streamed to chapters that want to participate
Students can send in questions for the speaker before hand
I got to see Anderson Cooper at a conference in March

Jared:

I think taking away the Union study space is pretty risky, but last night it wasn’t that busy as far as people studying in the lobby
It will also affect the third floor

Erica:

A lot of people tend to ignore what’s happening and just study anyways

Ryan:

If someone’s determined to study they can use one of the other facilities

CJ:

Simply put, denying our students to see Simon Sinek would be a disservice to our student body

Andrew:

Using the McNeil room for such a positive thing, seeing there are so many places to study, they should just hold it
Kay:

The senate has been looking for study space for a long time and we normally don’t have events on Fridays and I am worried about the precedent it will set

David:

It has been used by APO and GM Week on weekdays

Kay:

It wouldn’t hurt to wait a week, so they can demonstrate using numbers and then come back

Ananya:

I don’t think we should deny them the opportunity to see Simon

It will be beneficial to whoever listens and we should let them listen where a lot of students are

*MOTION TO ALLOW USE OF THE MCNEIL ROOM BY NATIONAL SOCIETY FOR LEADERSHIP AND SUCCESS ON NOVEMBER 8TH* PASSES 16-0-2

Dear Executive Board of the Union:

As you may know I started a chapter of the National Society for Leadership and Success this year. There has been a great response to it. We have had 260 members join from the Sophomore class (Pilot, target group). As part of the induction process the Society offers live stream broadcast of prominent speakers. These broadcast can be shared with the entire RPI community not just the membership.

On November 8th the broadcast of Simon Sinek, a renowned leadership speaker has been scheduled. He is known for his books, “Leaders Eat Last” and “Start with Why”. His live broadcast entitled, “The Infinite Game” is being held on Wednesday, November 8th from 7-8:15pm. The room would need to be used from 6-8:30.

I have tried to book space on campus that can accommodate an audience of around 200 people and had no luck. I have attempted to reserve space in EMPAC, West Hall Auditorium, DCC 308 and 318, and Sage 3303. All rooms are unavailable due to either exam schedule or performances in EMPAC.

I would like to request the McNeil room for the live broadcast. I realize that this can impact students that typically use the space as study space so I have reserved Mother’s from 6-8PM as an alternate study location.

I appreciate your consideration of this request.

Sincerely,

Graham Knowles

RPI TV EXECUTIVE BOARD PROPOSAL - OCTOBER 5, 2017

Background

Since 2013, RPI TV has been providing professional-quality video services to Union clubs and other campus organizations. With a crew composed entirely of volunteer members, RPI TV provides an overwhelming majority of its services at no cost. On rare occasions, when a production is not classified as “general interest” per our job policy (i.e. the production is not of general interest to the RPI community, or RPI TV does not have the rights to host the video on its website), RPI TV charges for its video production and editing services. Unlike UPAC Sound and Lights, this income does not go toward paying members; rather, it goes back into our budget to purchase equipment to further improve future productions.

Last year, RPI TV began working with the Severino Center for Technological Entrepreneurship and ACHA Hockey to provide ever increased coverage of management seminars and home club hockey games, respectively. As a result of these new partnerships, among others, RPI TV earned $2,846.59 of unexpected income in FY 2017.

Problem

The RPI men's hockey team is scheduled to travel to Northern Ireland for the 3rd annual Friendship Four tournament in Belfast. Aside from competing for the Belpot Trophy, the team will spend a week taking part in outreach programs in local schools, with a focus on promoting STEM education on the British Isles.

Last semester, RPI TV began discussions with RPI Athletics in hopes of traveling with the team to produce a documentary of the trip. In order to properly chronicle the trip, and capture the experience of the tournament, at least two camera operators and an audio operator will be needed; having multiple camera angles is a big factor in the increase of quality in our video piece. Unfortunately, Athletics only has enough funding to send two RPI TV members.

Research

RPI TV has been working with Athletics to determine the feasibility of sending an additional two students. After researching available flights, we have determined that the cost for two flights will be $1,271. Athletics has informed us that meals will cost $38 per person per day, and a double room in the Belfast hotel will cost $120 per night (for a total of six nights).

To fairly determine who should go on the trip, a poll was conducted where all voting (activity fee-paying) members selected candidates from amongst themselves.

Proposal

RPI TV proposes the Executive Board permit the reallocation of $2,447 of incentive income from FY17 to fund the travel expenses of two additional students.

To Whomever It May Concern,

Chuseok is one of the largest holidays in the Korean culture; in contemporary South Korea, many businesses give employees several days off in order to allow them to visit their hometowns to pay respects to the spirits of their ancestors. The origin of this holiday stems from the celebrations held in the past to thank the ancestral spirits for a successful autumn harvest. We believe that holding an event to celebrate the holiday at RPI would help to reinforce the institution’s commitment to promoting multicultural diversity while simultaneously introducing students to the Korean culture. The RPI KSA has successfully held this event in the past, but due to some complications in recent years we have not been able to honor this tradition. We believe that now, we will be able to easily actualize this event thanks to the existence of Sunhee’s Kitchen (a locally owned Korean restaurant). We are asking to bring back the funds we were already allocated in the past in order to provide for catering from the aforementioned establishment. As the $320 in funds being requested will be used strictly for catering, there will be no other emergent costs in the future budgets; there will be no maintenance or replacement costs. We hope the Executive Board will be inclined in assisting us in making the Korean culture more accessible to students on campus by reinstating the funds necessary to supply the event. Thank you very much for taking the time to consider our proposal.

Sincerely,
Korean Students Association
